	(6) a further review of rating and finance matters be undertaken as required after the Independent Panel recommendations are determined by the State Government.	<p data-bbox="963 331 1442 519">Noted. This Council made the following comments to the Independent Panel in regard to necessary changes to legislation affecting rates Such a review needs to cover a wider focus.</p> <p data-bbox="963 546 1442 1012">A number of Councils are having difficulty with the rating of mines. Recent court decision have meant that land owned by coal mines that is currently used for mining purposes cannot be necessarily rated mining pursuant to Section 517 of the Local Government Act. Mining companies purchase land for noise and dust attenuation purposes as well as for environmental offsets. These lands are taken away from agricultural purposes and the mine cannot operate without this land. It is therefore appropriate that this land be rated mining.</p> <p data-bbox="963 1039 1442 1317">Also mining companies, as part of their environmental offset programs are gifting land to the State Government and declaring it national park or conservation land. This automatically makes the land non-rateable, even though they are often mining under the land, or require the land for a buffer between their operations and neighbours.</p> <p data-bbox="963 1344 1442 1559">There needs to be a complete and detailed review of the legislation relating to this matter so that local communities are not subsidising mining companies through their rates, because they have the resources to be able to work their way around the system.</p> <p data-bbox="963 1585 1442 2074">Council is requesting Government to amend the legislation that allows Councils to rate temporary state significant developments beyond the rate cap. When a new development is imposed on a Council area such as a coal mine the cost of maintaining infrastructure increases. The property that the mine owns and/or operates will have a changes in rate categorisation and thus a higher rate in the dollar. Any additional income from that recategorisation should be additional rate income to Council and not form part of the rate cap. And when the temporary development ceases then Councils can</p>

Topic	Recommendations	Council's Response
3.3.10	The Taskforce recommends	still maintain the original rate income without a sharp cost burden to the other ratepayers when the development ceases to operated
Procurement	(1) the adoption of central principles of procurement combined with a medium level of regulation to ensure support of the following principles: a) accountability b) value for money c) probity, equity, fairness and risk management d) efficient and effective competition e) market assessment	Agree
	(2) main considerations for each principle be contained in the Act or regulations, with further considerations contained in guidelines or a mandatory code	Agree
	(3) a council's procurement framework be consistent with its IPR framework	Agree
	(4) rather than the legislation setting a monetary threshold, a more flexible principles-based approach be established to enable councils to determine their threshold based on risk assessment of the proposed procurement and the procurement principles	Agree

Topic	Recommendations	Council's Response
	<p>consistent with the procurement principles; and</p> <p>b) qualification for a council's earned autonomy may be through an accreditation process or by council's development and diligent maintenance of policies and practices that are consistent with requirements issued by the Division of Local Government or other oversight entity. Qualification by accreditation is preferred as this should increase the accountability of councils to the community.</p>

Agree

	(2) aspects that could be streamlined or simplified be identified and mechanisms for ensuring PPPs be considered for inclusion in the IPR framework.	Agree
3.3.13 Acquisition of Land	The Taskforce recommends council plans for the compulsory acquisition of land be linked with the IPR processes, and in particular the expressed opinion of the community in the Community Strategic Plan on the need for additional public land or the sale of public land be included in Delivery Program provisions. 	(8) ceasing the need for separate plans of management for community land to be prepared and maintained, and in lieu, utilise the Asset Management Planning and Delivery Program of the IPR process	Agree
	(9) ceasing the need for a separate report to be obtained from the Department of Planning and the need for ministerial approval where council proposes to grant a lease, licence or other estate over community land in excess of the current 5 years, where an objection has been received by the council	Agree
	(10) proposed leases and licences be addressed as part of the council's Asset Management Plan and adopted Community Engagement Strategy with the 30 year maximum term to remain	Agree

Topic	Recommendations	Council's Response
	unchanged.	
3.3.15 Approvals, Orders and Enforcement	The Taskforce recommends	
	(1) regulatory provisions be reviewed to ensure that the Act provides guidance on regulatory principles but contains flexibility and less prescription in regulation implementation, provision of statutory minimum standards or thresholds, and councils having discretionary "on-the-ground" functions	Agreed. At the same time, consideration should be given to enabling councils to make their own Local Laws in much the same way as councils in other States.
	(2) consideration be given to the notion of a risk based approval process where persons or corporations are given general approval to conduct certain work rather than dealing with applications on a piecemeal basis	Agree
	(3) within this framework, the prescriptive processes of approvals and orders be streamlined and, subject to risk assessment, be placed where possible into regulations	Agree
	(4) removal of as many approvals and orders as possible and placing in specialist legislation if they cannot be repealed	Agree
	(5) the principles for dealing with approvals and orders be incorporated into a council's IPR framework through the Delivery and Operational Plans, including adoption of an Enforcement Policy and any LAPs and LOPs	Agree

Topic	Recommendations	Council's Response
	(9) aligning council powers of entry with contemporary legislative standards	Agree
	(10) increasing the time limit for commencing summary proceedings from 6 to 12 months.	Agree
3.3.16 Water Management	The Taskforce supports changes proposed to water recycling provisions which will consolidate and simplify the legislative framework. Otherwise the Taskforce makes no recommendations regarding the structures for the delivery of water and sewerage in non-urban areas, noting that the Taskforce gave the issue consideration but is aware this area is being dealt with by other reviews.	Noted. But this Council re-emphasises its objection to any part of the management and operations of water and sewer facilities being taken away from this Council.
3.3.17 Tribunals and Commissions	The Taskforce notes (1) it is expected the Local Government Pecuniary Interest and Disciplinary Tribunal will be consolidated into the newly constituted NSW Civil and Administrative Tribunal (2) the Independent Panel is examining the issue of structures and boundaries, how boundary changes might be facilitated, and possible change of method of operation of the Local Government Boundaries Commission and accordingly makes no comment pending the outcome of this review (3) consideration be given whether to merge the Local Government Remuneration Tribunal with the Statutory and Other Officers Remuneration Tribunal.	Noted. Noted. Noted.
3.3.18 Other Matters	The Taskforce recommends (1) consistent with Taskforce recommendation 1.3, that in place of sections 23A and 10B(5) that the Act empowers the Director General to issue mandatory codes on operational and governance matters relevant to local government (2) a formal Oath of Office for councillors is introduced as a mechanism for inducting councillors into their role and reinforcing the serious nature of the role and the chief responsibilities and duties the role entails (3) the provisions of the Act governing councils' expenses and facilities policy are reviewed to ensure they are	Agree Agree Agree
