Create your own
Paper Cactus Garden

STEP 1

Print the cactus
template page . Turn
over and colour the
entire reverse side.
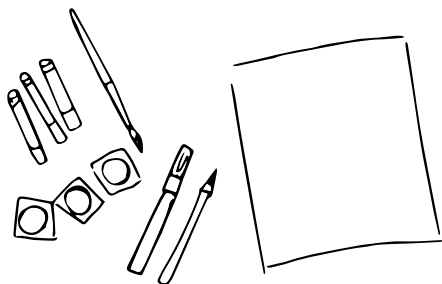

STEP 2

Cut out the 8 cacti.

STEP 3

Fold each cutout in
half (printed side to
the centre).

STEP 4

Take one cutout and
glue side A to side B of
another cutout.
(all folds should align to
the same side).

Repeat this process
until all pieces are
joined
together.

STEP 5

Fan and glue the
remainig side A with
remaing side B to create
your 3D cactus.
