Justification for shed size

To. Mid-Western Regional Council.

My client Mr. Kevin Scott,

Would like to construct a 7M wide x 10M long x 4m Eave Colorbond shed on his property, At 8 Thomas Clare Place Mudgee NSW 2850.

Mr. Scott likes to restore cars as a hobby,

The reason for the shed to be of this size, is so he can park 2 cars in the shed, as well as have room for his work bench and tools.

Mr. Scott intends to place a car hoist in the shed as well, this is the reason for the height of the shed.

If you require any further information, please don't hesitate to contact me.

Regards

Rob Uncles.
