

8.3 Land and Housing Supply Monitor 1 January 2022 - 30 June 2022

REPORT BY THE MANAGER, STRATEGIC PLANNING
TO 20 JULY 2022 ORDINARY MEETING
GOV400098, LAN900042

RECOMMENDATION

That Council receive the report by the Manager, Strategic Planning on the Land and Housing Supply Monitor 1 January 2022 - 30 June 2022.

Executive summary

The Land and Housing Supply Monitor was developed as part of the Urban Release Strategy process in 2014. This Monitor is presented to Council every 6 months and provides the latest development activity data for the preceding six-month period. This report details the total activity for the 2021/22 year.

In addition, the attached Monitor details land supply within the R1 General Residential and R2 Low Density Residential zones. The Monitor is attached to this report.

Detailed report

The following is detailed in the attached Monitor:

- Recent development activity for the most recent six-month period ending 30 June 2022.
- Land supply within the R1 General Residential and R2 Low Density Residential zones, detailing how many years supply this represents.
- Current population growth and forecast.

The Monitor focuses on the R1 General Residential and R2 Low Density Residential zonings in Mudgee as this is the area experiencing the greatest growth in the region. Over time this Monitor will be expanded to include other land supply around the region.

It is important for Council to maintain this Monitor to ensure an adequate land supply is maintained. Further, the Monitor assists in the consideration of land zoning decisions and providing advice to community members in relation to rezoning enquiries.
