

Waste & sustainability workshops for years 1-6

Dubbo Regional Council, Mid-Western Regional Council and Narromine Shire Council offer engaging syllabus linked waste and sustainability workshops for years 1-6 at no cost to schools.

DELIVERY OPTIONS

The workshop aims to engage students with real world experiences on topics of litter, recycling and food waste and broader understandings of sustainability.

With the uncertainty of the COVID-19 (coronavirus) situation, online delivery is encouraged.

Please advise your schools preference when booking.

COVID-SAFE MANAGEMENT PLAN

The Council Waste Education Program educators facilitate sessions in a COVID-Safe manner.

We have updated our Risk Assessment in the context of the COVID-19 pandemic. This is in line with the Department of Education guidelines, and relevant health authorities. Online and face to face delivery is available. Where face to face delivery is booked activities have been adjusted to have minimal contact to prevent the spread of the virus.

Curriculum based school programs

COST:

FREE for all schools in the Dubbo Regional, Mid-Western Regional and Narromine Shire Council areas

DATES:

Dates available throughout Terms 3 and 4 2022.

There is a limited number of spots available so please book as early as possible.

Registration for the program is required by the end of Term 1, Friday 1 April 2022. After this date schools can still contact the education officer as places may be available.

To find out more please contact the Resource Recovery Education Officer.

**Bookings close:
End of Term 1
Friday 1 April 2022**

Years 1 & 2

Syllabus linked Outcomes and Learning Intentions **LITTLE LITTER SUPERHEROES**

STUDENTS WILL:

- Learn about what litter is, where it comes from and why it is harmful to the environment, animals and people
- Understand ways to reduce and address littering

OUTCOMES:

- GE1-2 identifies ways in which people interact with and care for places
- GELS-3 explores interactions and connections between people, places and environments

Years 3 & 4

Syllabus linked Outcomes and Learning Intentions **RECYCLE RIGHT TOGETHER**

STUDENTS WILL:

- Learn about different waste management approaches and systems (linear- landfill and more circular- recycling and reuse) and impacts on places and the environment
- Gain greater understanding of the recycling process and the role they play in it
- Identify commonly recyclable materials

OUTCOMES:

- GE2-2 describes the ways people, places and environments interact
- GE2-3 examines differing perceptions about the management of places and environments
- ST2-16P describes how products are designed and produced, and the ways people use them

Years 5 & 6

Syllabus linked Outcomes and Learning Intentions **FIGHT AGAINST FOOD WASTE**

STUDENTS WILL:

- Develop an understanding of what food waste is and the environmental and social effects of food waste
- Explore solutions to food waste which benefit people and the environment

OUTCOMES:

- GE3-2 explains interactions and connections between people, places and environments
- GE3-3 compares and contrasts influences on the management of places and environments
